August 3, 2010

FILED
2010 SEP 15 PM 4:14
COURT OF APPEALS DIV. #1
STATE OF WASHINGTON

Statement of Additional Grounds:

In the case involving Gerald Collins these six felony harassments were never truly proven. In order to convict someone of felony harassment (telephone) you have to prove beyond a shadow of doubt that he made these so called allegations telephone from a landline in Hastings, Minnesota. This telephone #(651) 319-5117 has been disconnected for about 3 years prior to this case. There is no way I could have made these telephone calls since, I was residing in Milwaukie, Oregon from June 5, 2008 up until September 12, 2008. Awaiting extradition.

Also the jury never heard my voice, because I never testified in court. Western State Hospital deliberately and wrongfully diagnosed me with acute psychotic illness and paranoid delusions. This is an attempt to cover up what had happen at Western State Hospital with me being sexually harassed by "Dean Harrison" a social worker on ward F-2. Then filing a complaint with investigator (Julia Leonard)

(Jerry Carrington). Also being threatened by a patient named Glad who I believe was sent by Dean Harrison a social worker at Western State Hospital to intimidate me and for me to reverse my complaint against (Dean Harrison).

These telephone calls were never made by me. Seattle Police Department edited my voice to say these horrible things so that they could shut me up about their involvement into child pornography. They also in cahoots with the Mental Health System and with these massage schools. Ashford College was sued by the Department of Education in Berkeley, California in July of 2011 for 6.5 million dollars for false advertising and falsifying federal student loans documents.

I do not have to change myself for nobody. People have committed crimes against me and the law doesn't want to do anything about it. So do not expect me to care about what people think about me. Finally Prosecutor Gary Lindloff used things in some case that had nothing to do with this current case.

August 5, 2010

Nathaniel Paul Schleiner is a sex offender and his assaulted me on three occasions at Ashmead College and he did not do a day in jail for it. Charity Cox takes Zoloft for paranoid schizophrenia and paranoid delusions. How is her credibility to be trusted?

The Mental Health System does not deal with male survivors of abuse. Aside from that being severely traumatized and mentally ill are two completely different things. The Mental Health System does not deal with trauma victims and an organization called Male Survivors does. Check out this website (www.malesurvivor.org.)

The Mental Health System completely screwed me all around and diagnosed me with Borderline Personality Disorder and Paranoid Delusions to destroy my credibility and character. I have been victimized all of life and it is going to stop. This mental health thing is a cover up to keep me from exposing Ashmead College and Seattle Police Department's involvement into child pornography and allowing sex offenders

underage teenage girls onto property.

Also have a mental health evaluation is a bunch of bull because when I am the victim of a crime the law gets smart with me. Men like Nathaniel Paul Schlener are always attempting to dominate me and put me out in front of a bunch of women. This is unheard of.

Conclusion with no previous, serious criminal record. Not be placed on any psychiatric medication and the state or jury not hearing my voice this case needs to be totally dismissed. I request all sixth felony amendments to be completely overturned and for my name to be cleared. King County completely screwed me all around. Nathaniel Paul Schlener needs to be in prison not me. Also the state never sufficiently proved or traced the telephone calls to me.

This sentence is unconstitutional by all the amendments in the constitution and the fact that these telephone calls could have been made by anyone.
