2. Sealed Cases Not Displayed in Odyssey

Ms. Miner provided an update to the Committee regarding sealed case records that are dropped from screen view in the Odyssey Portal case management system, putting it out of compliance with GR 15 public index rule requirements. With a name and case number, customers can currently look in JIS-Link to see the existence of sealed cases. JIS-Link is a paid system, however, and it is not completely reliable. Mr. Keeling thought that JABS (Judicial Access Browser System) displayed sealed case records correctly, but Ms. Miner pointed out it does not include all cases, like guardianship or civil cases. Mr. Keeling reported that the time required by Tyler Technologies to redesign Odyssey software is estimated to be 2100 hours, at a cost of $388,000. The courts of limited jurisdiction are currently in talks with Tyler Technologies to develop their new case
