Online Record Access to Superior Court
For Self-Represented Litigants
Role Comparison

Our group's goal is create equal access, wherever possible, between the Self-Represented Litigant (SRL) and an Attorney of Record (AOR). This proposal includes changes to the current AOR access in order to meet the stated goal.

The screenshots below compare the existing Portal Registered Public Access (RPA) role and the proposed SRL role. For presentation purposes, the AOR access was used to show what SRL access will include once it is developed.

Search results tile, Party Search Results:

Proposed changes will remove access for the AOR to the highlighted personally identifying information (specifically: gender, height, ethnicity, state ID, weight, physical descriptors, and vehicle information) to create equal access between the AOR and SRL while maintaining the safe guards to potentially sensitive or personally identifying information.

<u>Existing AOR access:</u>

<u>RPA & Recommendation for future for AOR and SRL access:</u>
