In The Appeals Court for
The State of Washington Division III
at Spokane

Terry-Lee for Orville Leroy Moe Apellant	Case # 297926
vs.	Why I Filed This Vulnerable Adult protection Case
Aaron Goforth (et-all) Respondent	My Reply

I, Terry-Lee, for the Handicapped Disabled, Vulnerable adult one Orville Leroy Moe do here by give Judicial Notice that I filed This case because Orville Leroy Moe and his two Brothers and his whole family spent 35 years of Blood, sweat and Tears and Laughts building Spokane Raceway Park for everyone to enjoy. Then when attorneys suggested he file chapter 11 to

PREPARED BY
DATE

protect himself from his nephew Troy Moe's Lawsuit against him. He took Their advise and filed Then Judge Austin was convinced by Reed + Cosia P.S. To Kick Orville off his own 35 year Long property.

When Judge Austin at a hearing pointed his finger at Orville and yelled out "your out of here", (on the record) and gave full control to Barry Davidson (Reciever) The Transfer of a $160,000,000.00 dallar property 600 plus acres was only a few Legal procedures away from Spokane County buying it at a Rigged Auction sell, For Less than 6¢ on the dallor Value,

For over a month now Orville has acquired minnetes of meetings held in various county dept. where the take over and acqusition of Spokane Raceway Park was

PREPARED BY
DATE

In fact Engineered.
The Parties present at the said county meetings where, County Commissioners, some staff City officials from Airway Heights, officals from Fairchild Airforce base, Indian Casino staff and of couse a few very, very, very crafty Attorneys who put this whole Take over together.
If this court will check out the new Eminet Domain Laws of many States are that when a State, County, City or government Agency moves forward to take a piece of protery from its current owners for a public interest (Orville's 20,000 home capacity Sewer Lagoon system) They now have to pay 125% of fair market Value.
Lets take the Value (claimed current worth by the Spokane County Assessor for said Raceway Park) of $ 160,000,000.00 and add 25%

PREPARED BY
DATE

That equals $200,000,000.00 that the county would have had to pay for said Raceway park if the county went through the normal proceedures of Eminent Domain.

But because there are some Very, Very, Very crafty Attorneys in Spokane the county of Spokane was able to acquire a 160,000,000.00 piece of property for Less than Seven million dallors.

The amount of conspiracy, collusion + Fraud that has Lead up to this hostile Takeover for the benifit of the County of Spokane is nothing short of "Finominal" - Always In solo Propria Natura
