COURT OF APPEALS
DIVISION TWO
OF THE STATE OF WASHINGTON

2021 APR 12 AM 8:52

STATE OF WASHINGTON

Respondent,

v.

Wayde Rice
(your name)

Appellant.

No. 54843-7-II

STATEMENT OF ADDITIONAL GROUNDS FOR REVIEW

I, Wayde Rice, have received and reviewed the opening brief prepared by my attorney. Summarized below are the additional grounds for review that are not addressed in that brief. I understand the Court will review this Statement of Additional Grounds for Review when my appeal is considered on the merits.

Additional Ground 1

I have a major case of P.T.S.D. leading to a full nervous Breakdown and mental Breakdown that started when I was 8 years old when I lost my best friend and his entire family in a Commercial Plane crash in Dec. 1966. The judge in my case refused and rejected several experts - Doctors - to testify in my case. I have been diagnosed by these mental cases by 3 of my Doctors and two Doctors from the State of Washington - it was obvious of PTSD/Mental Breakdown!

Additional Ground 2

I am a Retired/Proffessional Fireman/Paramedic Commander from a very Busy and Dangerous Fire Dept in the San Francisco Bay Area. I completely Blacked out when the Police in Va. Attacked me at my home with what the lead Detective called "Her Army" 30 Armed officers with Rifles + Pistols surrounding my house. I should have been rushed to the hospital for a 72 hour hold so the Doctors would determine this was not any thing sexual but a desperate way to infiltrate the internet and report Back to the Police/Feds.

If there are additional grounds, a brief summary is attached to this statement.

Date: 3/20/21

Signature: Wayde Rice

Form 23

Please see the several envelopes with further Details of my case. I am innocent and this case should be thrown out and dismissed.

54843-7-II

①

To: Washington State Court of Appeals
Division two
From: Wayde Rice #394130
Subject: Court of Appeals new trial (#54843-7-II)

#1 Additional Grounds for Appeal #1 —

There are many grounds for a new trial and appeal as my Attorney Brett Pontzer has outlined to you in his Brief to your honors.

The most important grounds for my appeal and why I should be granted a new and more vigorous defense is the fact that my trial judge refused and rejected any of my many psychological experts to testify in court. The judge cited a "very weak" response from my experts. I argue that despite the massive and perhaps unprecedented case of not only PTSD but it was not just PTSD since I was 8 years old this was added to by my extraordinary career as a fireman/paramedic and Commander in a very busy and dangerous part of the S.F. Bay Area. We now know and it has been confirmed that the day after I retired from the Fire Dept in Aug. 2008 that I was immediately suffering from a PTSD and a full nervous break down and full mental breakdown due to what happened to me when I was 8 years old in Dec. 1966 when I lost my best friend in a commercial plane crash. This Breakdown and PTSD

has been diagnosed by ~~2~~ two of my Doctors and two Doctors from the State of Washington — one at Shelton and one at SCCC. I can assure you any legitimate Doctor psychologist or Psychiatrist would easily diagnose this condition and not only agree with why I did what I did but they would also protest at the way the police and State has handled me, my case and my family.

To make my long story short I lost my best friend in Dec. 1966 and immediately had PTSD since the instant I lost him. The biggest surprise of a 1000 surprises in my life is that I was not dealing with the loss of one thing I was dealing with the loss of <u>two</u> of the biggest things in my life!

These losses (unknown) drove me to PTSD, and what I now call "survival mode". I had a tremendous guilt for just living past my friend and for failing on the second loss which was <u>twice as big as</u> the loss from my friend. "<u>Survival mode</u>" was a desperate attempt to stay alive while 80-95% of me wanted to die. I never wanted to live past my friend and past the second loss.

The second loss which was 100% hidden from me was the fact that I had decided and had been studying on my own to go to <u>Med School</u> and become a Surgeon! This was my

Wayde Rice

life from the time I was five to the instant I lost my Best friend in Dec. 1966. Both of these were completly hidden from me Until July 2018 when I remembered them while working on my case in July 2018. They were Both hidden from me because if I had remembered any part of them I would have wanted to Kill myself! This is exactly what happened to me - As any Doctor one even you judges would learn, understand and Believe.

I am and has always been an american patriot, selflessly serving my country, my community and the people - Always - Duty - Honor - Country is what I always stand for.

This had nothing to do with Anything sexual. this was survival mode in which I infiltrated the internet, acted as if I was a "Federal level law enforcement Agent" to find "Bad Guys" and report them to the police. It was also to ask the police for a legitimate job and second career getting the "Bad Guys" if that did not work or they said "no" to the job - I would have asked them if I could continue to infiltrate the internet ~~any~~ and try to find the "Bad guys" and report them to the law / Authorities. This is what I was doing - there was nothing sexual about this incident, nor could it be sexual / It was impossible

Wayde Rice

mentally and physically - It was impossible!
To inform the police / law enforcement what I was doing online I also sent them 1000 separate emails on: these separate emails to let them know what I was doing online and that there was no sexual component whatsoever!

This event has been a huge mistake from the beginning. ~~This~~ My intent was made so obvious your honor that even a monkey could figure this out! It was made obvious because that was my intent, to work not above the law but with the law. I have always been with the law and throughout my career as a fireman/paramedic I worked 10 years in one of the most dangerous towns in the United States and always worked as a Police officer as well! This is what I do and who I am!

This was all done in a desperate attempt to simply stay alive and not kill myself! this was also ~~under~~ while trying to deal with a massive PTSD case and a nervous breakdown and full mental breakdown — I stated at my sentencing these facts and told the court "I am beyond sorry for taking these risks, I am horrified by what I had discovered with my mental health and told them I was trying to be a cop—

Wayde Rice

Yes, I was desperatly trying to be a Police officer but I had to be at a level above a Police officer; I had to be a level of a Federal Agent. It had to be more dangerous, more Risky, more Important. This was essential for me to live with the guilts of losing my Best Friend Mark in Dec. 1966!

For 52 years, between Dec. 1966 and July 2018 I had subconsciously been ~~trying to both~~ fighting to Die and trying to live all the same time! I never Knew this was going on until July 2018 when I had a Mental Breakthrough and the 10 minutes later had a mental Breakdown when a thousand memories of my life came to me suddenly and I started to remember the real memories of my life Dealing with the catastrophic loss of my friend Mark.

I will also tell you, that 8 days after remembering my life the Biggest surprise came to me. My P.T.S.D. was not the loss of just one thing in my life; I was Dealing with two losses the second loss was twice as large twice as dangerous and deadly as the loss of Mark. But I never Knew about this ~~loss~~ second loss until 8 day after I first discovered the loss of Mark Williams.

These losses were a Catastrophe for me and my life. I had an active Death Wish since I was 8 years old. I never knew that but both of

Wayde Rice

my parents Did. they saw everything and were frightened to get me help. they knew that if I had gotten my memory Back that I would kill myself. My Mother was terrified as I quickly began acting out and changed. The Boy ~~she~~ my mother ~~gave~~ gave Birth To was Dead and someone else took his place. I was coping with these two losses for 52 years! I never knew that but my Parents Did know; they knew and saw everything! this led to a Mental Breakdown Starting the Day after I retired from the Fire Dept. in Aug. 2008!

I am asking not only that you grant me a second trial I am asking that you judges interview me and then intervene in this case, throw the case out and dismiss this case! You will see there was no true sexual component in this case, you will see the 1000 messages I sent to the Police/Authorities to "cover my Ass" and to let them know that I had infiltrated the internet to be a Federal Agent and find the Bad guys and Bring them the the Police Attention!! This was made to be obvious to professional Police!

I ask that you intervene in this case and get this true American Hero/superhero out of Prison immediatly!

Wayde Rice 54843-7-II

2021 APR 12 AM 8:51

(A)

Your honors,

I humbly request your help and immediate help and intervening in my case. Not only am I not guilty of anything sexual in this case like I stated before it was physically and mentally impossible all of which I can prove in court. I stated before I planned the entire event all in a desperate attempt to work with the police / Law - ~~Feds~~ Fed. Any professional Law enforcement organization would have known what I was doing infiltrating the internet and reporting "Bad guys" to the Real Authorities. I was working as a fake Authority. This was a large part of my "Survival mode" caused by the two greatest losses of my life when I was 8 years old!

My story is a tremendous one and it is the incredible truth from a great man and selfless public servant. "Duty, honor, Country" not to mention 30 years as a fireman / paramedic and commander who literally could not stop doing great things for the people. I ~~did~~ now know that I never did my job fighting fires and paramedicine by the numbers. I now know that I was always working above my pay grade, I had to do that and had to be a "superhero" so that I could live with myself and live with the subconscious guilts and the loss of my friend Mark Williams

and the loss of a second and even more powerful guilt that I did not discover until 52 years later in July 2018. I discovered that while incarcerated. As an ~~a~~ example of many examples I developed an advanced way of doing Cardio-Pulmonary-Respiration - No one else in the country would ever dream of doing that but I had to in order to live with my subconscious ~~guilts~~ guilts. I am a fireman/paramedic who has saved more lives with this advanced C.P.R, than anyone else in the country! 75% of paramedics/firemen never see or witness a save, in the State of Washington that number is 95% never see any saves. If you are busy, in a busy city you might save 1 or maybe 3 lives using C.P.R. When I retired my Fire Dept in Aug 2008 I had saved 53 people with C.P.R. that was no accident and it shows you all how I had to work so hard not just to save the public and their families but I now know I had to save ~~so~~ 53 lives to save my own life and not kill myself! that is ~~a~~ just one example of "my own survival mode". I saved more than 53 lives but I did not count the people that I did not believe would make it out of the hospital.

My entire life from the time I ~~was~~ 8 years old is filled with strong examples of me in

Wayne Rice

e

my own survival mode. Yes, all my life from Dec. 1966 - to July 2018 I was in "survival mode" trying to stay alive doing great things and saving lives including my own! I never knew this until July 2018. It would take me two more years to figure this all out for myself. I was hoping and planning that the State of Wash. would help me with my obvious mental condition, that never happened! I literally planned all of this stating that "All of us, the police and law enforcement are all professionals just like in California where I grew up and worked closely with for 30 years! In fact for ten years I had to participate and act like a police officer in one of the most dangerous and deadly cities in the country! I have worked many times with the Feds, State and local law enforcement. Thats another reason I planned all of this to work with the law. I was never working above the law I was always working with the law and contacted them from the very beginning of my operation!

Do you actually think that this true American Hero could actually make this story up and then lie to the judges of this country let alone the people of this country? Do you all really believe that this Great man and Patriot could possible make up and lie in court and to the people of this country face to face? Would that ever be possible - Hell ~~Know~~ No!

Wayde Rice

(D)

Its not possible!

I am sorry and beyond sorry that this happened to me and my family. I am horrified to learn not only had I ~~ats~~ always had an incredible and powerful case of P.T.S.D. since I was 8 that without help this was going to cause me to have a complete and total nervous Breakdown and mental Breakdown that started the day after I retired from the Fire Dept. in California! I am even devestated by these facts.

These facts are just the short story and facts to my life and how my case started and was handled by the State of Washington. What I will tell you now is how these cases are handled by ~~prov~~ proffessionals throughout these United States like California. Proffessionals is what I had planned on from the beginning, but that is not what you have here in Wa.

~~I was~~ If this took place in California for the past 50-75 years the police would have noticed "something was wrong" with me a mentally and the Fire Dept and Ambulance crews would have interviewed me first before the police. They would have also known I was "mentally wrong" and w[illegible] have sent me to Stanford Hospital for a [illegible]r hold at the hospital where the [illegible] Doctors there along with law enforcement quickly discovered my PTSD and

my nervous and mental Breakdown which would have been obvious to them! They would have determine why I infiltrated the internet and that none of this had anything sexual about this case! The police prosecutor and State of Ca. would have dropped this case and the police and prosecutor would have talked to me directly and apologized for not understanding what I was doing and they would have been glad to have helped this great and real American Hero who has sacrificed and suffered for 52 years from the subconscious loss of the two biggest things and events in my life!

Your honors, you should understand that this is the truth. there is so much more to my story and life and dealing with these multiple tragedies. Its horriffic now knowing and understanding the real and hidden truth of my life! What I have suffered is horriffic. What I have suffered at the hands and feet of the State of Ca. is also horriffic and real. I would welcome an interview with any rational and professional judge who wants real justice for the people and myself and family. I will also tell you that I do not have any ego I buried my ego and other arrogance with my friend Mark Williams in 1966. Mark died with the rest of his family and 200 other passengers while flying to Philidelphia in dec. 1966 a few

days from Christmas. I saw his crashed plane on the T.V. news and the next morning in the newspaper. What I did not know or understand is that this was a Catastrophe for me and controlled my life always saving lives and doing great things for the people of these United States I love and have loved serving and protecting all my life. These risks and decisions that no one else would even consider to take I took these risks all the time throughout my life and throughout my career! I thought these risks were choices, they were never choices. I had to do them and had to be <u>successful</u> just to live with my internal and subconscious guilts of living past my friend <u>Mark Williams</u>. You see, I never wanted to live without Mark or Past Mark! I was always fighting to live (about 20%) and fighting to die (80%) all at the same time! This fight and struggle lasted 52 years and took me another two years to figure out!

Its an amazing story and one of the most significant cases of PTSD and Nervous Breakdown cases in Wa. State. In California this case would have been over in 22 hours not <u>five years</u>!

Wayde Rice

Your honors, not only am I asking for a second trial with all my experts to testify - I am inviting any one of you, for an interview and asking to you to intervene in this case and dismiss this case, as it should have been from the beginning (June 2016) I will also tell you that this was all planned by me an acting law enforcement officer. I planned it all and even wrote the script about how this would all go involving the police - It was my intent to keep them informed of my infiltration on line from the very beginning. The police in Wa. ignored the 1000 messages I had intentionally sent them.

This was all intentional with me sending the Wa. St Police or anyone 1000 emails to "Cover myself" so they would all know what I was doing.

I am asking for you all to interview me discreetly I am very confident you will all believe and understand me and my mental Health issues at the time of my arrest.

After two years of discovering the lost memories of my life from July 2018 until present I am not only sorry for taking these risks, I am horrified by it and I am by it. I was always taking these risks throughout my life. I took these risks to save my life. As far as the ten pictures I was found with on my computers I literally went to

dozens of times from June 2014 to June 2016 to erase and delete these pictures but in my mind I desperatly needed these pics to prove to the police and any law enforcement including any federal Agency that I was equal to a Federal Level Agent. In my mind all people are responsible for and can be a Law enforcement Person, especially me since I had been doing this successfully throughout my life and career. This is what I was always doing and needed proof, that is why I kept the pictures to prove what I was doing! Yes, I was that crazy and desperate - desperate to live and NOT kill myself! that is not only my PTSD but a my full and complete nervous and mental Breakdown! I am horrified by that! There was no choice for me there never was a choice I had to do these Risks or Feel like killing myself! It was never a choice throughout my life and career! My life was like being pushed off a cliff!

My life and unable to deal with the losses of my young life is and always has been horriffic. The second and most important event/thing in my life that was lost to me for 52 years was my dreams and plans for becoming a surgeon.

From the age of 5 I had already known I was going to be a Surgeon - an Open Heart Surgeon. I was studying for this from the Age of 5 to

Wayde Rice

(I)

~~to~~ until the instant that I lost my best friend Mark in a plane crash! I was a geek and studying on my own for 3½ years! My mother would drive me to Stanford University Book Store for Anatomy and Physiology texts Books, Cardiology text Books also - we would also go to "KePlars" Book store several times a year for more Books to Read and study and take notes on! My Bedroom was full of not only these Books and notes but I was writing several Medical Schools to ask them how to accomplish my dreams of being a heart surgeon! I had tremendous passion towards people and medicine, I have talents for medicine and people. My Bedroom was also full of expensive medical models! ~~to~~ My room was full of these costing me $1500.00 in 1966 over 3 years time! The instant I lost my friend I also lost this to my memory - within days of losing Mark I Angrily threw out all of these medical Books and Models into the Garbage not knowing why I had it in my Room. I was a different and Broken Human Being after Both of these unknown losses in my life! I was trying to Both live and Die at the same time for 5½ years! That lasted until I had a nervous Breakthrough + Breakdown in July 2018 while being in carcerated. I ask for an interview with you all and for you to intervene in my case and dismiss the charges. - Thank you

Your honors, Appeals 54843-7-II (#594130)

2021 APR 12 AM 9:51

I apologize for the spelling and grammar and the redundant nature of these ~~letting~~ letters to you. I am in Prison and it is not easy to write to you and to keep these thoughts and ideas organized, readable and discreet within the Prison walls here at Stafford Creek.

I want to make it clear that the two cases of tampering with the evidence which includes taking my very simple statement in court on Nov. 9th 2016 - I stated "I'm sorry this happened." I said that in court because I did not know what happened (as I was suffering from PTSD and a complete nervous Breakdown) - the State of Washington deleted that statement and instead placed their own statement that supposedly came from me! They falsified the ~~transp~~ transcripts and placed a 2-3 paragraph full statement that did not come from my lips! You have to remember in my condition I could barely think, barely talk and I could not defend myself! The other example of corruption and tampering with the evidence is when the Police and Prosecutors deleted video evidence of me collasping during a 2 hour interview in the Back of their Van at my home in Toledo while surrounded by 30 Armed officers! I am sure they have tampered with other parts of my case - this is Routine

Do you believe in "justice and Righteousness?" Me too! My entire life and career is filled with real examples of me taking Risks for my Profession, for the people of this country!

It is very obvious to this professional that the people of the State of Washington are and always has been frightened and terrified by their own police, Law enforcement, and Prosecutors. I know this because I was told by 5 of my neighbors including my own Realtor and another businessman who went out of their way to warn me that "I was not longer living in the United States" when it comes to the criminal Justice system here in this State!

I gave the police/prosecutor and Any Professional Agency 1000 emails on 3 separate emails to make it very clear what I was doing on line and that there was no sexual component to this! I sent them to the Authorities so that even a complete Moron would understand what I was doing and know how I was "covering my Ass"!

Honor, duty, country that is who I am! Also, a Super patriot, superhero super everything! I now know I had to be 'super' and take Risks that no other would ever think of! I had to do this subconsciously to keep Alive and not kill myself! I thought I was making a choice but there were never any choices for me! Incl. the choice of leaving these pictures on my computer!

I went to my computer dozens of times to erase these pictures but I literally could not do it! I had to have them to prove what I was doing online - it was obvious but I needed the pictures to prove it to the Authorities! I did that all "law enforcement are professionals" as I grew up with and worked with closely for 30 years! I did not know the Criminal Justice System in this state was and had never been professionals until I was told by 5 of my neighbors and 2 business people in the first month I was here!

I refused to believe my neighbors, I gave the police/prosecutors and Washington State the benefit of the Doubt! I was wrong to do that and my neighbors were obviously telling me the truth!

I ask for a second trial with my Doctor approved to testify, but what really should happen is I ask for an interview with any rational, reasonable Judge a judge (I have already passed a polygraph) once you interview ~~some~~ I ask that you intervene in my case and drop all charges, dismiss this case and immediately open an investigation of Lewis County law ~~Enforcement~~ by the FBI, Dept. of Justice and the Attorney generals office. All of these agencys should come from Washington D/C Not the State of Washington!

Yes, we are all gathered here because of my survival made that lasted from 1966 – to 2018 – 52 years! It was going to take until now to not only figure this out but to be able to articulate, speak to you all about it. There is a short version of this catastrophe and a long version – the short version is I am a human being that has experienced professionally and personally too much trauma that a human being can handle – trauma from since I was 8 and maybe possibly starting at age 5. ~~This the start~~ then the School Board Attacked me at my house ~~after~~ with an "army" of officers, Rifles, Pistols, 5 – Battering Rams – terrorized me at at my house, terrorized my family + kids in Cal. I completely Busted out even before the "interview" started – Collapsed – what they did to me and you ~~was~~ lasted so Bad even for them that they deleted – manipulated and edited the evidence as they have done for 100 years or more!

The long story is this – I have had PTSD since I was 8 years old

State psychologist to testify on my behalf as to what happened to me - my PTSD leading to a complete nervous breakdown and mental breakdown starting the day after I retired from the Fire Dept. that I had severe PTSD from the time I was 8 years old starting the instant I lost mark Williams in a plane crash - my best friend → I was ~~never~~ never the same - it was a complete catastrophe for me lasting 52 years!

Your honors

Now I have described briefly what has transpired in my case and again I invite any judge or judges to interview me and you will see and hear that I speak the truth. I have more truth to tell you all from the most honest public servant who served the people selflessly for 30 years in my career and after my career was over during my retirement and even today.

I was living in Portland Oregon after returning from New York, London England and Washington D/C. From these cities I was trying to get a job at a Federal Level; trying to join the fight against terrorism starting in Dec 2013 - March 2014. I was totally unsuccessful and eventually flew back to Portland Oregon in March 2014. It was here I literally told myself "You are now a federal Agent" and I started infiltrating the internet and from the beginning was sending emails to the police or any law agency who was looking in. I was also unsuccessful finding Bad guys and bringing them to the police Attention. If all of this sounds crazy, ~~they~~ it is. Not only was I suffering from a massive PTSD case and obviously having a nervous Breakdown and mental Breakdown. This was from the loss of my friend back when I was 8 years old. I was a total failure and desperate to be a involved in any form of law enforcement.

I stopped infiltrating the internet in June 2014. I kept the pics in my computers Devices to prove to the police what I was doing on line. I kept them as if my life depended on it! What I did not know was that my life really did depend on proving to the police what I was doing on line and that there was absolutly nothing sexual about it! That is how crazy and ~~despit~~ desperit I had became and how crazy as well. I am very sorry and horrified by this.

In July 2015 I bought a 40 Acre Ranch in toledo Wa. I bought this to work on for a year, fix it up and sell it so that I would fix my tiny case of PTSD and fly back to Newyork City to "save the world" and fight international terrorism! that was my one year plan. I never wanted to live here in the state of Washington. I told my Realtor this several times.

I moved into my Ranch July 15th 2015, ~~within~~ within 1 month 5 home owners literally ran up to me at my small local grocery store in the tiny town of toledo and warned me face to face with both fear and terror on their faces and warned me about the abuse of the police, prosecutors and criminal Justice system in this State of Washington! They stated "You are no longer living in the United States" you are living in Russia, china, North Korea, any "police state". Five homeowners

told me that and many other things within the first month after I moved here! That is a fact. They also told me there is corruption in the "Criminal Justice System here".

I will tell you that in my case the police/prosecuter has tampered with the transcripts in my case and deleted video evidence that would not only prove of their abuse of me but would also prove the mental and physical condition I was in when I was attacked by 30 Armed officers at my house in Toledo Wa.!

There are many other things the State of Wa. and its judges would learn and discover from an interview with me, including my innocense!

There was no crime in my case and no criminal. I was and am a great American patriot who has simply experienced too much trauma in my personal and proffessional life than a human being can take. My PTSD started when I was 8 years old and I spent 52 years attempting to cope with it (It was completly unknown to me for 52 years, but both of my parents always knew I was Broken)

I am asking for a second trial, but if you interview me you will find that a trial is not necessary.

I am not only asking you for an interview I am asking the State of Washington to interviene in ~~my~~ my case and drop the case!

Wayde Rice 54843-7- II

4-D

I should have never been Arrested. In any proffessional law enforcement Agency the police should have known what I was doing online. When they and the Fire Dept and Ambulance medics saw me blacked out on the scene I should have been rushed to the hospital and placed on a 72 hour hold. In a normal and proffessional Crimminal justice system this case would have been dismissed in 72 hours! The proffessionals in this country has been dealing with these things Routinely for 50-70 years! I know this because I have done this myself dozens of times!

The state of Washington should not only intervien in this case, dismiss this case immediately they should open a full investigation into Lewis County Crimminal justice system! It is obviously abusive and has terrorized its own citizens for decades! That is obvious! Its also obvious that they are out of control and corrupt. Tampering with the evidence is routine. Lying on the Stand is also Routine all these things are used to cover up the illegal procedures the rest of the country has not used for 100 years! That is painfully obvious from a true and real proffessional! What the five home-owners were telling me is that the Crimminal justice system here is a ~~catat~~ catastrophe for the American people! 300 million of us!

Wayde Rice

0

Your honors, at my sentencing in July 2020 I gave a statement to the people, the court and the judge. I first stated as I had stated many times before. I said that "not only was I sorry I took these risks that I also was horrified by having to take these risks and that I would not have kept these pictures if I did not feel as if my life depended on it". I stated there was nothing sexual about these pics and what I was doing online. I simply wanted and needed to be a 'Federal Agent' and in law enforcement in order to live. I was living with massive guilts and in 'survival mode'.

I then continued to inform the judge and prosecutor of all of the ~~warning~~ warnings I received from 5 homeowners incl. two business people within the first month that I arrived in the state of Washington - they were my neighbors and theirs as well. I told them that these five stated to me "we hate the police, they are corrupt and out of control", the "State of Washington has never had professional Criminal Justice System" they told me many other things about the Criminal Justice System here in Wa. They told me "its us versus them!". I stated these facts to the judge and others in hopes that they would care and be interested in how the people see them performing their Duties.

As I predicted the judge and others could not care less about what the people think.

It was clear in that courtroom that the Criminal Justice System has complete contempt for the people they are supposed to serve - especially in Lewis County.

I bring all of these facts to your attention because I care and I give a damn about the people here in Wa-State and everywhere in the free world! I am and has always been a selfless public servant - I and trying to serve the public here in these pages and in my court case.

I ask for an interview and a complete dismissle of this case. If not that then I ask for a 2nd trial.

Also, at my sentencing the judge removed the two years I had already served in ~~Prision~~ Prison, completely ignoring my mental Health history and everything else I stated as an honest and selfless public servant.

Thank you for listening. I look forward to talking with any of you to correct this wrong in my case.

Again I am horrified by this, but also horrified that I had always been dealing with PTSD and being Broken human Being since I was 8. Thank you Wayde Rice #394138

Waxde Rice Appeals Ct. ~~#5483~~ 54843-2-II ①

2021 APR 12 AM 8:

Your honors,

Yes, I am seeking an interview with any rational judge or anyone to explain my case. I planned this entire thing which included bringing and notifying the Authorities from the Beginning. Including the Police, Feds was crucial and was done as if my life depened on it as if a gun was pointed at my head. It was always like this throughout my life!

When I told you that I uncovered rampant "tampering and deletion of evidence" by the police, prosecutor and ~~co~~ transcripts I want you to know this was confirmed twice by my first Attorney in July 2016!

I am a super patriot, super-hero in my profession - (I had to be to not kill myself) I am honest, honorable and always do the right thing and the righteous thing all my life! I had to!

I am also a human being who has been Broken since I was 8 years old when I lost my Best friend and his family in a horrible plane crash. That event was hidden from me as well as a second and more devestating loss I never knew about. My Brain hid both of these things subconsciously because if I remembered them I would have quickly killed myself! I went crazy eventually starting the day I retired from the Fire Dept. I became a complete wreck and was a wreck when I was attacked by the police and an "Army" of

Armed officers, yelling at me and banging the windows of my tiny house on my ranch.

I planned this, I wrote a script about how this would go based of my experience with what we do in California for the past 50-70 years!

I again not only ask for a second trial I ask you for an interview and an intervention in my case. I am hoping for a dismissile in my case as what should have happened after being Rushed to the hospital which should have happened the day the police Arrived at my house in June 2016.

Thank you for your consideration -

I seek Rightousness as all of you do.

Thank you

Wayne Rice
