COURT OF APPEALS
DIVISION III
STATE OF WASHINGTON
By

Renee S. Towsley

Re: Case # 334279, Adams county Court # 141001436

I believe a big part that was left out in my case is,

1.) The othello P.d., had three Squad cars at the scene of the pull over and Sherriff's department had a car also on the scene that played a hudge roll in the Illegal search of the vehicle I was driving and at no time was any of the video viewed or logged into evidence in my case.

Is that because it will show that the said officers made a mistake and will prove my innocence?

Why do cop cars have cameras for their own benefit?

I want all those videos viewed and included in my case.

(Barrett Scudder)

2) My lawyer was not allowed to properly investigate and prepare for this trial, Judge Dixon would not allow it.

Or any evidence heard from my lawyer he shut him down every chance my lawyer tried to speak.

How can a case be properly put together and a client represented if the judge won't allow the attorney to do his job correctly?

Again the videos would not of lied as the officers did on the stand.

Same as the videos of the said Court trial at Adams County and the things said during this trial by jurors and people watching would not lie about the doings or mistakes made.

Thank you,

Justin P. VanHollen

I would like to be present at this hearing.

Please Let me know this
got to you!

The laws are made to protect Citezeris
rights.

Why do cops think they can do as they
please and then lie about it?

I Lost three years of my life because of
this.
