COURT OF APPEALS
DIVISION II

I, Hue Deen, have received and reviewed the opening brief prepared by my attorney. Summarized below are the additional grounds for review that are not addressed in that brief. I understand the Court will review this Statement of Additional Grounds for Review when my appeal is considered on the merits.

Additional Ground 1

Under federal law State and local agencies have to acknowledge and abide by the Constitution and respect the bill of rights. The State of Washington and Thurston County failed to do so when they violated my Constitutional rights. Also during my trial I took a polygraph test that I passed that was never brought up in court. The test shows that I didn't break any laws and I wasn't living in Thurston County when I said I was living in Pierce County.

Additional Ground 2

When the state threatened potential witnesses with criminal charges it could have caused their testimony to be more reserved out of fear of legal back lash. If it were me doing all the threatening I would have been facing additional felony criminal charges for tampering with a witness. During court the state also informed Erica Moore that she was breaking the law by letting me watch her kids when in fact no laws were being broken.
If there are additional grounds, a brief summary is attached to this statement.
