Introduction

The JIS IT Governance Framework, approved by the JISC March 5, 2010 determines how IT investment decisions are made, communicated, and overseen. IT governance focuses on the alignment of IT decisions with the overall organizational strategy and the delivery of the greatest value from those decisions. The JIS Information Technology Governance Policy (See JIS Policy 1000-P1) establishes the importance of transparency and inclusion in the decision-making process through participation and communication with the court user community.

Purpose

The IT Governance Stakeholder Comment Process outlines the method for court community stakeholders to receive notification and provide comment on IT governance requests proceeding through the IT governance process.

Authority

RCW 2.68.010 gives the JISC the authority to “determine all matters pertaining to the delivery of services available from the judicial information system.” JISC Rule 1 provides for AOC to operate the Judicial Information System (JIS) under the direction of the JISC and with the approval of the Supreme Court pursuant to RCW 2.56.

Scope

This process applies to all persons, organizations, or agencies that operate, manage, use, or could be impacted by the portfolio of IT products and services provided by AOC (see JIS Portfolio Management Policy 2000 – P1).

Process

1. The JISC-approved Initial Stakeholder List (see Appendix A) comprises the initial group of stakeholders that will be contacted regarding notification and comment.
2. AOC will contact stakeholder groups on the Initial Stakeholder List to determine whether they wish to be included on the ITG Stakeholder Notification List.
3. Any additional stakeholder groups wishing to be added to the ITG Stakeholder Notification List will make the request to the AOC.
4. Stakeholder groups wishing to be notified of pending IT governance requests will provide contact information, including an email address, for a single point of contact to act on behalf of their group.
5. AOC will maintain the ITG Stakeholder Notification List, with contact information provided by stakeholder groups that have requested to be on the list.
6. It is the responsibility of the stakeholder group to notify AOC when there is a change in its contact information.
7. AOC will provide a mechanism for notifying the listed stakeholder group contact when an IT governance request has been confirmed by one of the Endorsing Groups identified in the JIS Information Technology Governance Policy (see JIS Policy 1000-P1).
8. It is the responsibility of the stakeholder group point of contact to notify their group of pending IT governance requests.
9. AOC will provide a mechanism for stakeholder groups to provide comment on specific IT governance requests through the public AOC IT Governance web page.
10. All comments must be verified by the stakeholder group's point of contact.
11. Verified comments will be posted to the specific IT governance request to which they relate.
12. Stakeholder comments may be considered by the governance bodies in their deliberations on IT governance requests.
13. Stakeholder input is limited to written comments attached to an IT governance request.

Maintenance

The JISC will review the ITG Stakeholder Notification Contact List and the Initial Stakeholder Group List (Appendix A) annually. After that review, AOC will contact stakeholder groups that previously declined inclusion to determine whether they are interested in being on the ITG Stakeholder Notification List.

This process will remain in effect for a minimum of one year, subject to revision by the JISC.
