The rule change is CrRj4.1. To further comment Our Judge bends over back words to make sure the defendant is treated fairly and justly

Are you commenting on a proposed rule change? Could you please let me know which rule? Thanks.

I do not require the 1500 words. We as a City are totally against this issue. I would invite anyone to visit our court. People are treated fairly and given their constitutional rights without question. I would be a financial burden on the city and do not see in our court situation that it would chance an thing.
