Subject: lets get anew system that is affordable to everyone

I have been in several legal issues and debates that shouldnt require a full lawyer knowledge especially when the lawyer is searching for the same questions at large sums of money it would be better to pay a person to listen to your case up front then get some legal knowledge before you spend the type of money that the lawers charge today, also a paralegal could be expected to reveiw your case the interpet to a lawyer who can handle it and the lawey would be able to have a better foundation of knowledge, Ihave spent the money to get the lawyers to understand the case several thousand \$ just for them to turn their back on the case after they have sucked me out of funds to feed my family also or to drop the case myself I would offer my cases to prove my point as i am in a limited area of law and that is agriculture, my latest case includes an attorney who didnt know which party to serve and has had to reserve the proper party and division of that company which a paralegal with reasonable knowledge could have I beleive figured out so I am stuck with two serving and the lawyers time which has cost me 2 x more the funds WE need a better system before the type of money here is spent on pliminary set up of a case, please call me at 509 990 3883 to discuss why we need better legal system here in our nation lets start here in Washington by setting a standard for the rest of the country Ps I have tried to say this the best way I can since I am not an attorney or have much legal explanation. So I am for paralegals to help get my case started as an option Years ago a paralegal helped me and this was very succesful as I won my case and speeded up the case load on the courts. Thanks Dean Mann
