Subject: proposed amendment to CrR 4.11

Please do not approve CrR 4.11, that would mandate that the defense interview be recorded. While we encourage the victim to allow the recording, we don't demand it.

It is a violation of the victim/witnesses rights. I work in a sex crime unit, where victims have already been "made" to do something they didn't want to.

Suspects should not be granted more rights than the victim.

If you do approve CrR 4.11, the suspect shall not have a say in whether or not the interview is taped either.

Thank you for your consideration.

Det. Julie Jensen

Snohomish County Sheriff Office

Special Investigation Unit
