Subject: Victim Interviews

Your Honor:

It is my experience (18 years as a systems advocate) that the defense investigators tend to use the tape recording as a way of intimidating victims especially when the victims are already having issues dealing with trauma from the incident. I feel that should be the victims choice not the defense bar. We should be as protective of the victims as we are of the defendants. While we are being cautious about rights let us weigh some victims rights as well.

Thank you
