Subject: CrR 4.11

Dear Members of the Court:

I am writing to urge you to adopt proposed CrR 4.11. Videotaping interviews will violate no ones rights and, in fact, benefit the parties and the person being interviewed. It will make for more accurate information being available to the court as well and greater professionalism in the interviewing process.

Having an unimpeachable record of the interview which captures the demeanor of the participants and the feeling of the interview as well as the words spoken may go a long way in resolving cases too.

PLEASE adopt this rule. It will be a win for everyone.

Rita Griffith
