Subject: Comments on Proposed Rule on Access to WSBA Records

Washington State Bar Association

You will find below, my comments on the proposed rule.

1. The list of exemptions in the proposed rule seems way too extensive, essentially eliminating disclosure of anything.
2. The most offensive exemption is the exemption about disciplinary reviews. The Public deserves full public disclosure on disciplinary action taken against attorneys so that they can have full knowledge of this when retaining an attorney to advise them or defend them in critical situations.
