**Dear Honorable WA Supreme Court,**

**We need to stop censoring court records, since those records tell the story about how we are really doing as a society. I know what it is like to be personally attacked as a whistleblower and cases like Rich v. Bellevue School District say Do Not Cite, even though I have a very similar ADEA claim involving a very similar pattern of workplace bullying aimed at older workers.**

**The difference is that I exposed serious discrimination and dangerous safety violations (all confirmed by LNI investigators) as an elected Union Officer for over 30 workers. I had a duty to report these matters and I was attacked personally and professionally for doing so.**

**It's even more interesting since I offered mediation and ADR for the past four years, yet the district has wasted well over \$500,000 trying to obstruct justice and illegally denying me equal access to justice.**

**I'm the only one who has offered to take a polygraph test the whole time, because I grew up in an honest family of teachers and law enforcement.**

**I have seen this same pattern of not publishing important cases in the 9th Circuit, since it involves the very powerful Bellevue School District. I have extensive and verifiable proof that district officials committed at least 3 Felonies: Perjury before an OAH Judge, Defamation/Libel/Slander which cost me jobs in 2 school districts, and Destruction of Public Records.**

**We are a better state and country than to allow some wealthy and powerful interests keep the truth about real court cases from going to the public citizens and taxpayers.**

With respect,

**Keith Dougherty**
