Subject: Proposed General Rule 38

To the Clerk of The Washington Supreme Court

Re: Proposed General Rule 38

The proposed General Rule 38 is an effort to have the persons employed to enforce this ridiculous Civil Court Rule become charged with a violation of Federal Law including and not limited to obstruction of justice. How ironic that the proponents would expose the judicial officers, court employees, and deputy sheriff or city police persons who attempt to prevent a federal officer from exercising the arrest of a person reasonably believed by the federal officer to be subject to FEDERAL arrest.

This proposed rule is further evidence there are many misguided, uninformed and intellectually challenged people designing efforts to impose their political views on others whether by illconceived law and now by court rule.

This proposed rule must be rejected.

Thomas M. Smith
