Purpose:

The Youth & Justice Forum has three important purposes.

1. It will educate middle and high school students, from communities under-represented in the legal professions, to employment opportunities in the legal system.
2. The Forum will enhance students' legal education.
3. It will build trust between students and those in the justice system.

Attending students will be able to:

- Learn about career opportunities from those in the field of law.
- Argue fictitious cases with attorneys and judges
- Meet local leaders in the justice system
- Leave with giveaways and much more....
