

ODYSSEY WORKSTATION SPECIFICATIONS

Although application does perform adequately for minimum specifications, optimal performance should be run on recommended specifications. In the event that application performance issues are attributed to minimum or lower than minimum specifications on the workstation, Tyler Technologies, Inc. will advise that the workstations be raised to recommended specifications

Odyssey Navigator Workstation Requirements (R2017+)

COMPONENT	REQUIREMENT
Workstation	Microsoft Windows Certified PC (Nationally recognized brand)
Processor	Dual Core (minimum), Quad-Core CPU (recommended)
Memory	4GB RAM (minimum), 8GB RAM (recommended)
Disk Space	40GB free disk space
Network	Gigabit Ethernet/member of a domain
Screen Resolution	1440x900 (minimum), 1920x1080 (recommended)
Operating System	Windows 8.1/10 Professional/Enterprise 64-bit
.NET	.NET 4.6.1 (minimum)

1. Resolution is optimized for dual monitors. Any resolution lower than the minimum will restrict some usability of user interface of application.
