TOTAL	189.00	10.00	48.30	7.80	244.64	

1. Year 2013 projected filings are based on the previous five-year filing trends of the various case types in a given court. Needs estimates are based on the previous five years of data for the number of total judicial officers and case resolutions.

2. Superior court judge positions authorized by state statute yet unfunded at the county level.

3. This column represents the estimated number of judge positions needed, as required by RCW 2.56.030(11). Individual counties or judicial districts may choose to establish and fund court commissioner positions instead of superior court judge positions. Identical indicators are used to measure the workload of both judges and commissioners.

4. The estimation process eliminates Lincoln County due to caseload anomalies which strongly influence the overall results. In order to obtain a true statewide total, the estimated judge need for Lincoln County is imputed to be identical to the current judicial officer FTE count in that county.
