CLERK WASHINGTON

Case # 1027184

In re marriage

LINDA K HAMMELMAN-BELD

Appellant

SCOTT LAMOYNE BELD

Respondent

Motion to Order

Attorney Joshua Bean

**To Produce actual
Requests on E-mail.**

Appellant Linda Hammelman (Beld) sent the following e-mail to all three of Respondent Scott Beld's Attorney's. This was requested and is self-explanatory. This information is very vital as you will see in my next response why this is Crucial and very important evidence for The Supreme Court to make a Ruling. No response was received from any Attorney.

In Attorney Beans E-mail he did not state he was not representing me and if he had an issue with this, he should have copied me in the e-mail and or requested the Appeals Court to request further documentation as it was submitted without

Redaction and other documents Under the GR 33 To the Appeals Court. This was sent as Appellant was unsure if I could get the GR-33 to go through as Fax was being kicked back. I had to obtain help in scanning documentation to E-mail.

Appellant needed an extension of time. This is the second time Attorney Bean Violated my medical notes he has received. The first was from an Attorney.

Appellant Linda Hammelman Requests the Court order the release of the Requested information as I will show in my response that Attorney Joshua Bean did in fact do this as an after thought and out of malice to stir up my PTSD and to cover a wrongdoing Attorney Bean or Mr. Beld committed.

When my PTSD is stirred up it causes other autoimmune issues and I am unable to even think about anything than getting it back under control. To do this with Covid and bacterial pneumonia and facing appendix removal was evil.

It slows me down in all my appeals and even in submitting motions to complete the final divorce order as Attorney Bean refuses all e-mails to complete the order and then threatens me with harassment and jail time under contempt.

I am currently still Positive for Covid and Bacterial Pneumonia and facing Surgery to remove my appendix once again, if it does not calm down. Having no assistance and lucky to use a computer at my girlfriend's house. The court needs to take note that I am still suppose to be on rest and limited Stress.

Attorney Bean has either ignored all pro se requests or as you will see in my response threatened me with contempt or harassment in violation of a restraining or court orders.

The trial Judge does in fact take any legal request or request of needed clarification as a violation of the restraining order/court orders and third-party contact by Appellant Contacting Attorney Bean requesting information. This is illegal and not the way our Justice system was set to work to meet the ends of Justice and allow for Due Process. The scales of Justice in Judge Banfield's Court Room tilts only toward the Respondent Scott L Beld. Regardless of proven lies and false accusations proven by documentation.

I would like the court to stipulate that this request cannot be filed as harassment as it is not and just a request for evidential proof and who else was on e-mail as I was not and in the other response the Court will see why its important.

It pertains to this Supreme Court Issue. If I can not verify words and ask for Actual proof of things being stated. Justice, is one sided an prevents Due Process.

Appellants Linda Hammelman's PTSD, autoimmune Physical and mental issues under the American with Disabilities have been totally ignored and exploited by the Respondent Mr. Beld, who still denies knowledge and his Attorneys who makes it worse with threats and failure to respond to legal information and statements that it is false or thinks I do not need help.
