Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact on the Courts

This bill establishes a new crime for a massage business owner that allows unlicensed massage therapy or unlicensed flexology . A first violation would be a gross misdemeanor and subsequent violations would be class C felonies .

II. B - Cash Receipts Impact

There are potential increases in fines ordered for the new crime . The maximum penalty for a gross misdemeanor crime is \$5,000. The maximum penalty for a class C felony is \$10,000. These represent the maximum fine penalty. The maximum penalty is not always assessed.

There is no data available that shows how many cases will result from the bill . However, it is assumed that the impact would be less than \$50,000 per year.

II. C - Expenditures

There is no data available to predict the number of gross misdemeanor or felony cases that could result from the bill . However, it is assumed that the impact would be less than \$50,000 per year. Gross misdemeanor cases are adjudicated in district and municipal courts . Felony cases would be adjudicated in superior court.

The \$50,000 expenditure level represents approximately 84 hours (0.07 FTE) of superior court judicial officer time annually cumulative for all superior courts in the state with associated support staff and operational costs . It is assumed that this bill would require less than 84 hours of judicial officer time statewide on an annual basis.

Part III: Expenditure Detail

Part IV: Capital Budget Impact
