## **Part II: Narrative Explanation**

This bill would remove provisions that would increase the seriousness level for sex crimes against children, and increase the seriousness level for residential burglary from seriousness level 4 to seriousness level 5.

### **Part II.A – Brief Description of what the Measure does that has fiscal impact on the Courts**

The law tables would need to be updated, and there would be a need for judicial education on the change of seriousness levels. This could be managed within existing resources.
