## **Part II: Narrative Explanation**

This bill would modify procedures for collecting DNA samples from persons who are not immediately taken into custody.

This bill differs from HB 2318 by modifying the requirements for collecting DNA samples from a person who is out of custody. A court would be required to order the person to report to the local law enforcement agency unless the local law enforcement agency has a protocol for collecting the sample in the courtroom, in which case the court must order the sample to be provided before the person leaves the courtroom.

### **Part II.A – Brief Description of what the Measure does that has fiscal impact on the Courts**

Section 7(5)(d) – Would provide if the local police department or sheriff's office has a protocol for collecting the biological sample in the courtroom, order the person to immediately provide the biological sample to the local police department or sheriff's office before leaving the presence of the court.

### **II.B - Cash Receipt Impact**

None.

### **II.C – Expenditures**

A court would be required to order a person to report to the local law enforcement agency to provide a DNA sample unless the local law enforcement agency has a protocol for collecting the DNA sample in the courtroom, in which case the court must order the DNA sample to be provided before the person leaves the courtroom.

Judicial education would be required. This would be managed within existing resources.
