Part II: Narrative Explanation

This bill would create the term “abusive litigation”, defined as applying when the opposing parties are current or former intimate partners, a finding of domestic violence has been entered, and the litigation is for the purpose of harassing, intimidating, or maintaining contact with the other party.

Part II.A – Brief Description of what the Measure does that has fiscal impact on the Courts

Section 3(3) – Would provide that the Administrative Office of the Courts (AOC) would be required to update the instructions, brochures, standard petition, and order for protection forms, and create new forms for the motion for order restricting abusive litigation and order restricting abusive litigation, and update the court staff handbook when changes in the law make an update necessary.

Section 4 – Would require that if a party asserts that they are being subjected to abusive litigation, a court shall attempt to verify that the parties have or previously had an intimate partner relationship and that the party raising the claim of abusive litigation has been found to be a victim of domestic violence by the other party. At the time set for the hearing on the alleged abusive civil action, the court would be required to hear all relevant testimony and may require affidavits, documentary evidence, and any other records a court deems necessary.

Section 7(3) – Would provide for a procedure for a review of a judicial decision to deny the application of an abusive litigant from filing a pleading.

Section 9(1) – Would provide a motion for an order restricting abusive litigation may be brought under an existing family law case.

II.B - Cash Receipt Impact

None.

II.C – Expenditures

The AOC would be required to update all relevant forms, instructions, brochures, petitions, orders for protection, create new forms, and update the court staff handbook. It is estimated this will require coordination with local governments, conduct committee meetings, provide document creation, review and approval, and publication.

It is unknown how many new forms will need to be created, nor is there information available to determine what information would need to be on all newly created forms and existing forms. The AOC would require 1.0 FTE Forms Analyst for one year to oversee the creation of new forms and update of existing forms, brochures, petitions, and orders for protection. Salaries and benefits for this position for one year would total \$114,073.

Section 4 would require a court to attempt to verify litigant’s current or former relationships. This could require additional hearings. There is no data available to estimate the number of additional hearings that could result, thus this section is indeterminate and could be significant.

New docket, cause and event codes would be required. It is assumed that there would be a minimum of eight new event codes and two causes of action (Civil and Domestic) required. It is estimated that this would require 137 hours of information technology (IT) time. IT costs are estimated at \$150/hour, thus 137 hours x \$150/hour = \$20,550.

Judicial education would be required. This would be managed within existing resources.

NOTE: No effective date is provided for implementation of this bill, so the AOC assumes the bill would be effective 90 days *sine die*. Instructions, forms, brochures, petitions, order for protection, and the court staff handbook cannot be updated within 90 ninety days.

Part III: Expenditure Detail

III.A – Expenditures by Object or Purpose

	FY 2020	FY 2021	2019-21	2021-23	2023-25
