Part II: Narrative Explanation

This bill would amend various statutes regarding involuntary commitment laws.

This bill differs from SB 5073:

- Would remove the term “court ordered involuntary outpatient behavioral health treatment” and all references to persons committed for forensic treatment;
- Would clarify that a program of less restrictive alternative (LRA) treatment for an adolescent may include residential treatment outside an inpatient hospital setting; and
- Would update terminology related to involuntary commitment and would make technical changes to clarify specific sections.

Part II.A – Brief Description of what the Measure does that has fiscal impact on the Courts

Section 7(8) and Section 8(8) – Would allow a court to subsequently modify the terms of an order for less restrictive alternative treatment under RCW 71.05.590(3).

Section 11 – Would specify the period of commitment that cannot be exceeded; 90 days if the underlying commitment was for a period of 14 or 90 days, or 180 days if the underlying commitment was for a period of 180 days.

Section 13 and Section 14 – A court may supervise a person on an order for less restrictive alternative treatment or a conditional release order. While the person is under the order, a court may: (a) require appearance in court for periodic release; and (b) modify the order after considering input from the agency or facility designated to provide or facilitate services. The court may not remand a person into inpatient treatment except as provided under other sections.

II.B - Cash Receipt Impact

None.

II.C – Expenditures

Minor forms review and revision. Court education would be required. These impacts would be managed within existing resources.
