Part II: Narrative Explanation

II. A - Brief Description Of What The Measure Does That Has Fiscal Impact on the Courts

This bill relates to the material changes to the operations and governance structure of participants in the health care marketplace. It retains the same court impacts but adds no others.

This amendment strikes and replaces certain definitions. It clarifies that the bill also applies to Material Change Transactions (MCTs) between certain Washington (WA) entities and out-of-state entities if transactions will impact health care in WA. It changes the threshold for notice requirement from \$10M in revenue to \$25M. It mandates that appeals of MCT decisions be reviewed in accord with a specified section of the Administrative Procedures Act (APA). It removes the requirement that certain parties submit forms for a 10 year period to verify the level of care provided to certain populations has not fallen below 50%.

II. B - Cash Receipts Impact

None

II. C - Expenditures

Fiscal impact is minimal as this would not be a new cause of action and new code impacts would be minimal. Court filings are not expected to be significant.
