<p>🔍 Search Tips: The advanced search page at search.leg.wa.gov/ will return some documents as far back as 1985, even though these documents will not be linked on a bill page. You will need to select the type of document and date range before you run a search. Scroll down to select the session year or years, choose the document type from the list, or at the very bottom of the page, select the House and Senate Floor Journals. Then, scroll back to the top and make sure you've selected the Legislative Documents button before you search for your terms.</p>
