

## Motion B

Offered by Eileen Farley

### Janus Association

I move that

-GR 12 and WSBA boards, entities, committees, activities, including those identified by WSBA counsel at the June 26, 2019 work group meeting as having First Amendment implications,

-be systematically reviewed by an expert outside the WSBA who would report to the Washington Supreme Court as soon as possible

-whether the United States Supreme Court remand order in *Fleck v North Dakota*

State suggests GR 12 and/or any WSBA boards, entities, activities other WSBA activities

identified by the expert should be modified or ended and, if so, what changes should be made.
