This comment relates to GR 23 (c) (1) (i) CPG Board membership.

My name is Mimi Hudson and I am the vice president of WAPG and have been a CPG since certification began. I have concerns about how unrepresentative the board is of Guardians and how having so few guardians does not allow for much real world experience to leak through. It is easy to decide what and how guardians should do things, another to actually practice.

This comment relates to GR 23 (e) (1) (iv) CPG Pending Violations.

My name is Madeleine "Mimi" Hudson and I am the interim vice president of WAPG and have been a CPG since certification began.

I thought one was innocent until proven guilty.

Providing all pending findings of violations is too much. Often frivolous complaints are brought by angry families when the money spigot is shut off. I have no problem with reporting finalized violations.

This comment relates to GR 23 (d) (1) (iv) Individual Certification requirements -- education.

I have a high school diploma and then got a Certificate in Aging at UW. I have a wealth of life experience and feel that while I support very much the program at UW for Guardian Certification to increase the knowledge about guardianship degrees do not make people smart, or give them common sense or compassion.

I would be against increasing the basic education requirements but support the new certification training.

This comment relates to GR 23 (c) (1) (ii) CPG Board member term limit.

My name is Madeleine "Mimi" Hudson and I am the interim vice president of WAPG and have been a CPG since certification began.

I feel that 9 years is too long. People become so entrenched that they forget why they agreed to serve in the beginning. It does not allow for new blood and ideas as the profession changes and develops.
