Subject: Legal Technicians Rule

Dear Ms. Faulk:

I have been informed by the Washington State Bar Association that there is a Legal Technician Rule under consideration. Would you please forward a copy of the proposed rule to me at your earliest convenience. As an attorney with 28 years experience, I am very concerned with allowing amateurs into the area of Family Law. Much of my practice is already engaged in correcting errors made by other attorneys and paralegals as they try to navigate this area. This sounds like a dangerous rule but until I see the rule I really cannot comment on it.

Thank you.

Steven Shea
