Subject: please adopt the proposed changes to CrR 4.11

I am a public defense attorney and I write to support the proposed changes to CrR 4.11 (and think the applicable CrRLJ should also be changed). The proposed changes will efficiently provide a way to take accurate account of what all witnesses say during interviews. This helps the interviews themselves be more streamlined and time-efficient, and guarantees for all participants that their words will be documented accurately. That way, should it become necessary to use pieces of the interview during trial, there will be less argument as to what was really said. This should be beneficial to all involved.

Sincerely,

Anu
