Subject: Comment re: proposed changes to CrR 4.11

Ms. Faulk -

I am writing this in support of the proposed changes to CrR 4.11 to allow recording of witness interviews. An audio recording most accurately preserves the statement made by the witness. In today's modern era of cell phones, audio and video recordings, and computers, it seems natural for the court rules to join the 21st century. The more accurately a statement is recorded the less it can be disputed and subject to incorrect interpretation. Time and money will be saved by using recording devices and the use of the devices will benefit the integrity of the criminal justice system.

I fully support the adoption of the proposed CrR 4.11.

Thank you,

Kari Reardon
