Subject: Comments on proposed GR 31.1

Ms. Foster:

I may not have read the proposed rule carefully enough, but there appears to be a possible clerical error in proposed GR 31.1(h)(2). The first sentence of this subsection provides: "A fee may be charged for the photocopying or scanning of *judicial records*." (Italics added.) I presume that the reference should be to *administrative* records.

Also, there appears to be a possible clerical error in section (e)(3). The first part of the first sentence states, "If a court of judicial agency . . ." (Italics added.) This should presumably be "If a court *or* judicial agency . . ."

I realize that these matters may have already been corrected.
