Guardianship Accountability

Honorable Justices;

I welcome the opportunity for open comments on GR 31.1  
Guardianship Accountability

## RULE OF LAW

All government officers of the United States, including the President, the Justices of the Supreme Court, and all members of Congress, pledge first and foremost to uphold the Constitution.

The oaths affirm, the RULE OF LAW is superior to the rule of any human leader.

When societal/legal issues plaguing a state, have reached crisis proportions and insurmountable resolution, it is wise to reevaluate our humble beginning.

When at odds with State Sovereignty vs Federal Law, or whether actions might be in conflict with a signed treaty of Universal Human Rights. We might consider the spirit in which these 'ROOM'S full of LAW's and STATUTES were initially intended.

## LIBERTY, FREEDOM and JUSTICE for ALL

The Separation of Powers~ once taught in my education, seem now, to be a tangle of blurred lines. In need of evaluation.

The crisis occurring in this country, impacts the quality of life for our Elders, (as they age) people with disabilities, and by extension their families.

We must be open to looking at the complicated web that has been created, In the name of protection for our vulnerable population. Giving valuable consideration to the US CONSTITUTION, the WASHINGTON STATE CONSTITUTION, and the UNITED NATIONS, Universal Declaration of Human Rights.

What is the commonality of them all? Life, Liberty and the pursuit of Happiness.

## Basic HUMAN RIGHTS.

Whether viewed through the lens of:

FEDERAL LAW

STATE LAW

INTERNATIONAL LAW

DIVINE / UNIVERSAL LAW

These principles were the foundation for our country. When the Principles, Laws, Statutes, and Constitution don't line up properly, Chaos ensues. We are there. By default~ the US founding CONSTITUTION prevails.

By plugging in Washington State~ Laws, Codes, Statutes and all added amendments, under corresponding \*State\* -CONSTITUTIONAL ARTICLES- We find it does NOT line up, is NOT being followed, and has soiled the founding principles of our State Constitution. Giving new meaning to the Good Samaritan theory.

If we plug in our current Washington Laws to the State or Federal Constitution, we find serious discrepancies.

It is best to view Human Rights on it's most simplistic level. For the benefit of all.

While considering factors in the Legality of Disclosure; the Constitutional Requirements, Granting Immunity Status for any Entity, Accountability, Proper Recourse, Stringent Oversight, or equal Justice = equal Disclosure. For all. No exceptions. Justice is in Jeopardy.

I honor your time and consideration.
