**Subject:** Comment regarding suggested new rule CrR 3.8

Hello,

I would like to submit comments regarding CrR 3.8, a suggested new rule. Proposed CrR 3.8 will impede effective law enforcement, because many individuals are reluctant to be recorded. With respect to DV victims, human trafficking victims, and any victim of a violent crime or gang-related violence, they will fear retaliation because they will anticipate (accurately) that their assailant will have access to the recording and their image may be circulated to associates of the defendant for purposes of retaliation.

Thank you for your time.
