Hi there,

I would like to quickly take a minute to respond. I, too, **would like GR 23 to be amended as proposed.**

I feel that having a strong representation of CPG's on the board is important.

With that in mind, CPG's are unique in the variety of backgrounds from which they come and the experiences that they bring *before* they came to the CPG world. Assuring that the backgrounds of CPG's have variety, I feel is very important in helping this field move in a balanced way.

The unique aspect that CPG's bring to the board, with boots on the ground, knowing the strengths and weaknesses, is so important in how this field progresses positively and holds accountability at the same time.

Thank you for allowing me to be heard, and thank you for your work.

Most sincerely,

Pete Brulla
