I live in Everett, WA

I've learned from WA GUN LAW on YouTube that there's a proposal being floated about creating quotas for the public defenders office. This is outrageous indifference to consequences and flagrant disregard for the public of WA state. How dare you create quotas instead of dozens of better ideas like incentives for Public defenders and raising their pay and ideas like no Bar Exams. These ideas and more will continue protecting us citizens instead of endangering the lives of millions because you all are too lazy to do the hard work your being paid to do! Shame on you who support this proposal. NO!
