

# Odyssey® / Microsoft®

## Compatibility Matrix

### SUPPORT AND COMPATIBILITY

Tyler Technologies follows Microsoft's product lifecycles for support and end of life. Tyler Technologies does not support any products running on Microsoft platforms that are beyond end of life, and recommends that customers review Microsoft's lifecycle pages annually to plan for moving away from platforms that are nearing end of life.

**Note:** Tyler Technologies can typically provide compatibility for new Microsoft software 6-12 months after general availability. This will also depend on our regression testing cycle for the newest Odyssey release. We can only claim compatibility for software that is installed in our environment during regression testing.
